Ground broken for ALRT

By BILL MCKAY
Premier Bill Bennett, 60, and 12-year-old shrine on Cheever in Burnaby, count among the first to turn out for the official groundbreaking at the Lower Mainland's proposed rapid transit line.

Feds, provi and local politicians gathered under grey skies at the site of the new line to be built by the most expensive line in the province.

"The time has come," Premier Bennett said. "We must act now to begin the new era of rapid transit in our province."

The line will be a major boost to the economy, he said, and will provide a major benefit to the people of the Lower Mainland.

The new line will run from Burnaby to New Westminster, and will be built by a consortium of private and public companies.

The line will be a major boost to the economy, he said, and will provide a major benefit to the people of the Lower Mainland.
