SUBJECT: ITEM 2 – Public Delegate Presentations

RECOMMENDATION:

That the Mayors’ Council on Regional Transportation receive this report.

PURPOSE:

To introduce the objectives and process for hearing from public delegates.

BACKGROUND:

Public participation at meetings is valued by the Mayors’ Council, and 30 minutes is set aside at each open meeting to receive public delegations. The Mayors’ Council will only receive public delegations who intend to speak on matters that are within the authority of the Mayors’ Council.

Individuals can apply to be a delegate by completing the online Application Form up until 8:00AM, two business days prior to the meeting. In situations where there isn’t enough time to hear from everyone wishing to speak, the Mayors’ Council encourages written submissions be sent to mayorscouncil@translink.ca.

The webpage for public delegates includes a Protocol for Public Delegates that notes:

- the Mayors’ Council Chair will exercise discretion in maintaining a reasonable level of order and decorum;
- delegates and all meeting participants are reminded that different points of view are respected, and discussions are kept above the level of personal confrontation, disruptive behaviour and profanity.

DISCUSSION:

The deadline to apply to speak to the Mayors’ Council is 8:00am two days prior to the meeting. At the time of this report, not all prospective speakers will have had a chance to complete applications. Accordingly, the list of approved speakers, as well as any written submissions or presentations, will be provided on table. Any presentations provided by delegates will also be provided to Mayors’ Council members only, on table (up to 10-pages maximum). Each delegation will be given a maximum of three minutes to address the Mayors’ Council. As a general rule, there are no questions or discussion between Council and delegates. The policy governing Public Delegates can be found online.

SUBJECT: **ITEM 3 – 2021 Mayors’ Council Workplan**

**RECOMMENDATION:**

That the Mayors’ Council on Regional Transportation receive this report.

**PURPOSE:**

To provide, for information, the 2021 workplan approved on December 3, 2020, and the 2021-21 Mandate Renewal approved on October 29, 2020. To provide the larger context to the Mayors’ Council’s work in the coming year.

**BACKGROUND:**

At the beginning of each year, the Mayors’ Council has adopted a strategic work plan to focus resources and time on its highest priorities in the coming year. While a range of secondary issues will also require the focus of the Mayors’ Council through the year, it is the identified strategic priorities that drive the agenda and where energy is focused.

At its January 30, 2020 meeting, the Mayors’ Council adopted its 2020 Work Plan with these priorities:

1. Approving the Phase Two Update Plan in June 2020
2. Negotiating the funding strategy for the Phase Three Plan with senior governments by the end of the year to pave the way for Phase Three Plan approval in Spring, 2021
3. Bring the major elements of the Transport 2050 planning process to a conclusion, in advance of that plan’s approval in early 2021

At its December 3, 2020 meeting, the Mayors’ Council released its 2021 Mayors’ Council Work Plan.

**DISCUSSION:**

The COVID-19 pandemic has upended our region, especially regional transportation, and the impacts are expected to linger for several years. The crisis has slashed transit ridership, devasted TransLink’s finances both in the near term and for the next 5-8 years and set in motion a difficult to predict set of changes to transportation patterns and trends.

The September, 2020 confirmation of $644 million in federal-provincial Safe Restart funding will recover most of TransLink’s pandemic-related financial losses in 2020 and 2021, and marked the “end of the beginning” of this crisis, allowing the Mayors’ Council to shift its focus from near-term survival to medium-term financial recovery and transportation planning over the next 5-10 years.
At the time, it was evident that continuing as the Mayors’ Council had planned at the beginning of its term, to approved a Phase Three Plan of the 10-Year Vision in mid-2021, was unachievable given TransLink’s financial crisis, unpredictable senior government funding, and the uncertain trajectory of transit ridership recovery.

At its October 1, 2020 meeting, the Mayors’ Council agreed to reset its mandate for the remaining two years of its term prior to the 2022 local government elections so that it could focus its time and energy on the most critical and achievable outcomes for this region. This renewed mandate includes two primary objectives which served as the foundation of the Mayors’ Council’s 2021 work plan:

1. **COVID Recovery and Rebuilding:** Complete TransLink’s COVID-19 rebuilding strategy, including rebuilding transit ridership, and recovering the full losses expected over the 10-year investment plan period. This strategy must be complete by mid- to late-2021 when (by legislation) the next investment plan must be approved. This next investment plan, the “Financial Stabilization 10-Year Investment Plan” should focus on:
   - identifying the revenues needed to cover COVID losses and achieve a balanced 10-year plan;
   - delivering the remaining elements of the Phase Two Plan (approved in June, 2018) some of which were delayed due to the pandemic;
   - approving the already-funded projects in the Phase Two Update Plan (i.e. SLS to Fleetwood; next stage of the Low-Carbon Fleet Strategy) so that these shovel-ready projects are not further delayed;
   - Ensuring resources are available to complete the project plans and studies needed to support the T2050 and 10-Year Vision Renewal process (see next section).

2. **Renewing the 10-Year Vision:** Renew transportation plans, both the longer-term Transport 2050, and its medium-term subset, the 10-Year Vision, to account for the post-pandemic environment and reflect the new transportation pressures and trends we were seeing prior to the pandemic. Approving Transport 2050 and a new Vision by the end of the current Council term will set up the new Council for implementation and continued transit expansion in 2023 and beyond.

Complementary to the mandate renewal are several additional 2021 work plan objectives also approved on December 3, 2020:

3. **Government relations:** In order to support the mandate renewal’s two primary objectives, a continued and strong emphasis on senior government advocacy will be critical. Building a relationship with the new provincial government, including the new Cabinet and newly elected MLAs, is always important, but even more so given the urgency of COVID recovery and the new government’s substantive transit agenda. Federal engagement will also be important given that the 2021 budget may include Safe Restart Phase Two funding, as well as infrastructure stimulus. A federal election is likely and will require targeted outreach and engagement.

4. **Governance:** The Mayors’ Council platform for the 2020 provincial election included a call for governance reform. The NDP responded to this call with a commitment to “talk about challenges with the current model, and your ideas for how it could be improved to better deliver the services that people in the region count on.” Given this is a long-standing priority of the Mayors’ Council, there is an opportunity to respond to the new government’s invitation to engage on this issue. Separately from the issue of governance reform, last July the Mayors’ Council asked staff to report back on how to “consider the importance of diversity and how it can be incorporated in the 2021 Screening Panel process” for appointing members to the TransLink Board.
