

Burnaby Mountain Gondola Study

Monday September 12th 2011
Community Update

Hello,

Welcome to the first edition of the Burnaby Mountain Gondola Study Community Update. I'm Kristin Lillyman, your contact for the [Burnaby Mountain Gondola Study](#) at TransLink. Here is the latest information on the study.

Thank you for participating!

Thanks to everyone who participated in the Phase 2 Consultation from May 10th to June 30th 2011.

More than 500 people joined us online, at public open houses and meetings. We received 561 feedback forms and another 110 email and letter submissions. We are now considering your specific suggestions and feedback as we determine whether or not to proceed with the project.

Read the [Phase Two Consultation Summary Report](#) to learn more about we heard.

As part of the planning process, TransLink has continued to meet with residents of Forest Grove. The input received from those meetings will also be considered in the business case and in future planning if a decision is made to advance the project. The Residents of Forest Grove [Meeting Minutes](#) are also available online.

Next Steps

The Business Case will be available in the Fall 2011. We will share the business case and future consultation opportunities via this community update. Stay tuned.

In the meantime, please contact me directly if you have any questions or comments.

Sincerely,

Kristin
