

Burnaby Mountain Gondola Transit Project

Feedback Form

- 1. The Burnaby Mountain Gondola Transit Project is being proposed to improve reliability and travel times to and from Burnaby Mountain and reduce the greenhouse gas emissions currently produced by buses that service the area.**

To what extent do you agree that this would be a good solution to solving some of the challenges of travelling to and from Burnaby Mountain?

1 = Strongly Disagree 2 = Disagree 3 = Neutral 4 = Agree 5 = Strongly Agree

Please provide comments to explain your response: _____

- 2. Tower location options**

The gondola would be supported by five towers. There may be an option to select preferred tower locations. Which would you prefer?

On or close to existing roadways In the forested area, or close to it

- 3. Visual impact of towers**

The visual impacts of towers could be minimized by landscaping or paint treatments. Minimizing the visual impact of these towers is:

Very important to me Somewhat important to me Not important to me

4. Integration with the transit system

If the gondola project proceeds, the bus service will be restructured to accommodate new travel patterns. What factors should we be considering when planning these changes?
