Minor Changes

A FEW additional changes in downtown Vancouver transit routes will be made Monday, Aug. 26, when the City's one-way street program goes into operation.

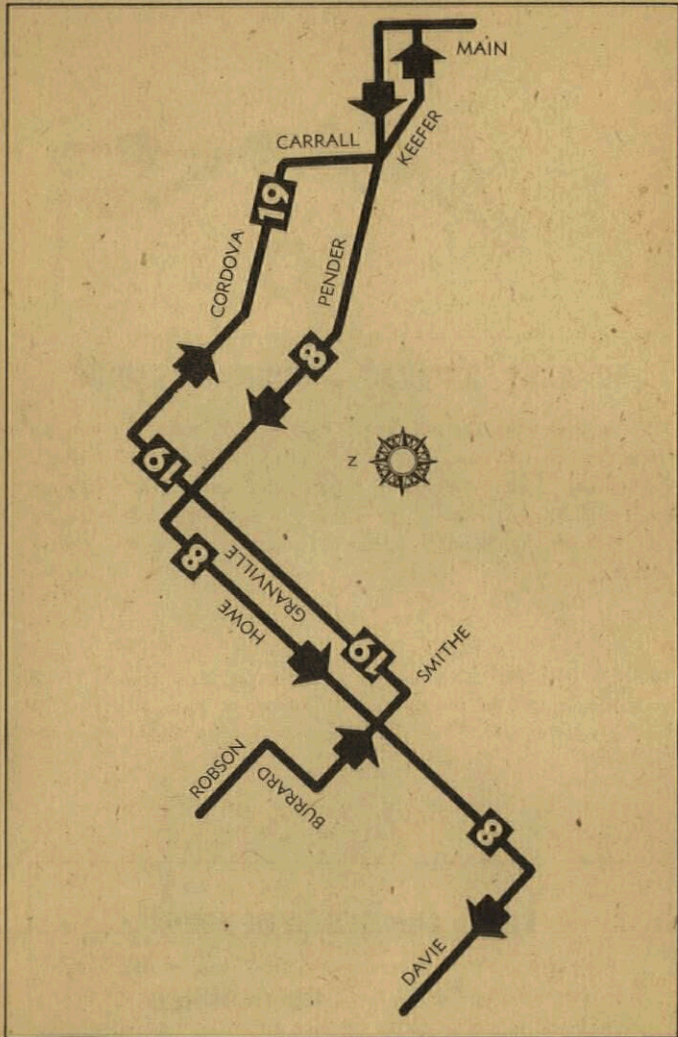

The BCE's basic program of changes was completed July 26, and service is operating smoothly—so these additional changes on four routes are only minor in nature and should cause no confusion for our passengers. For the most part they involve using the new Keefe Diversion, just east of Carrall, instead of Pender Street, for eastbound movements.

Here are the four routes that will be affected:

- 6 Fraser — 15 Cambie
- 8 Davie — 19 Kingsway
- 22 Knight — 23 Macdonald
- Burnaby Edmonds — Burnaby Stride

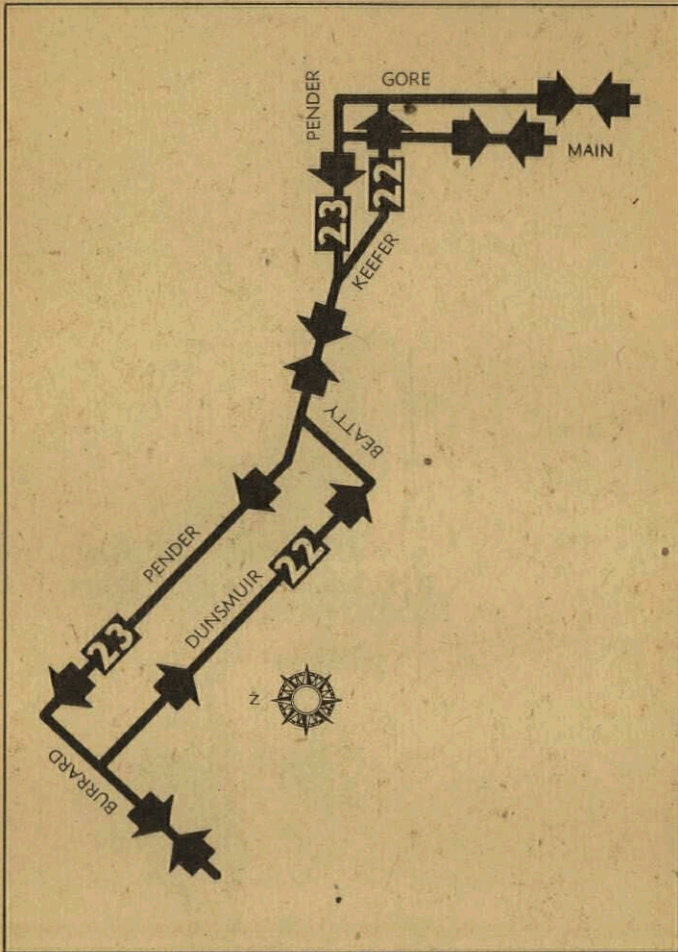

Maps of the new downtown routes for these lines are carried in this issue of The Buzzer, together with a large map showing all downtown routings and stops to help you make more convenient use of the transit system.
