Transit Changes

THIS FRIDAY — April 26 — the first of two major rearrangements for transit routes goes into effect.

These changes are designed to prepare our system for the one-way street plan which will go into effect in mid-summer.

Friday's change will introduce a number of new hook-ups of established routes which will give passengers greater penetration of the downtown area.

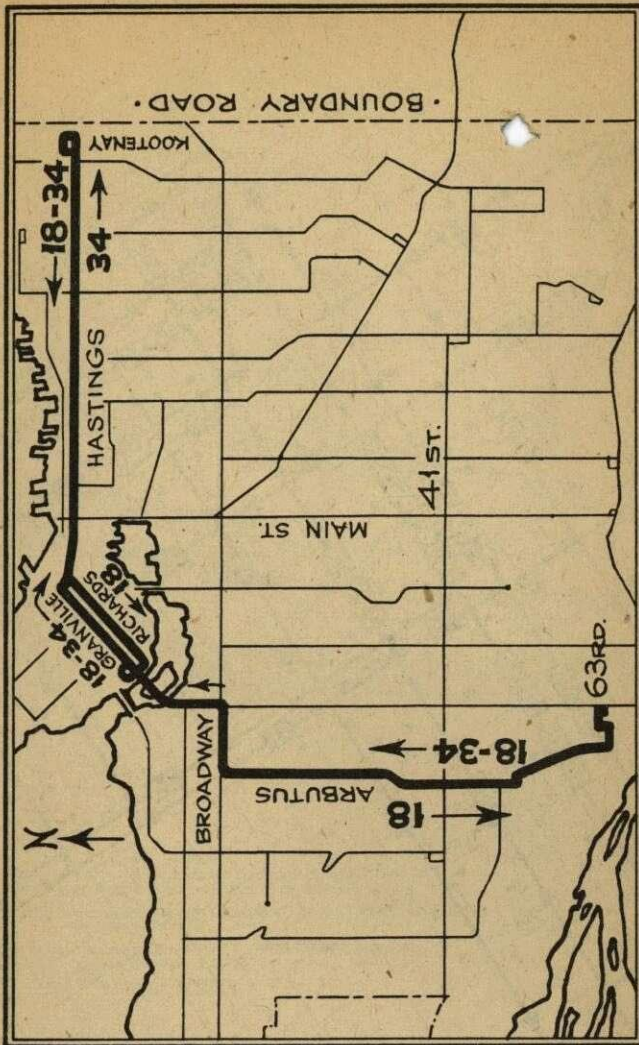

These route hook-ups are:

- Hastings Local and Renfrew with 10th Avenue and Dunbar.
- Oak with 4th Avenue.
- Nanaimo and Powell with Stanley Park.
- Knight with Macdonald.
- Hastings Express with Arbutus.

Maps of these new route hook-ups are provided in this issue of *The Buzzer* for your guidance. Please keep this issue with you until you have become familiar with the new routes.

For specific information ask any transit supervisor or telephone KErrisdale 7500.

The large map in this issue of *The Buzzer* shows all downtown transit routes with bus stops indicated . . . Look for revised signs at bus stops.

18 ARBUTUS — 34 HASTINGS EXPRESS

Note: Northbound to city, Arbutus runs via Granville, and east out Hastings, becoming Express at Main. Incoming Hastings runs via Hastings, Richards, Pacific and Granville Bridge.

B.C. Electric TRANSIT ROUTES IN DOWNTOWN AREA VANCOUVER, B. C.
