## BACK ISSUES

The Buzzer is 100 years old this year! In this section, we mine old issues for some historical tidbits and fun stuff. Enjoy!

**1990** On March 9, 1990, Metro Vancouver celebrated the SkyBridge expansion of the SkyTrain network into Surrey.

### Track to the Future!

On March 19, SkyTrain crosses the Fraser River and arrives in Surrey at the newest station in the system! Revised bus services will provide you with direct connections to SkyTrain, new routes, increased frequency, improved local service, greater service reliability and an expanded Park & Ride lot.

From Surrey in 1990 to the Tri-Cities in 2016, we are expanding service again to meet the transit needs of our region!

## IT'S HERE! THE EVERGREEN EXTENSION OPENED FOR SERVICE ON DECEMBER 2.

People across the Tri-Cities now have a fast and convenient way to seamlessly connect to the Metro Vancouver transit network. That means **MORE** transit choices and fewer people in their cars – something that will benefit drivers, residents and goods movers.

The opening of the Evergreen Extension is a major milestone in the region's history and a significant expansion of our integrated transit network:

- We've added six new stations to the Millennium Line and 11 km of track – making us the longest, fully-automated, driverless, rapid transit system in the world!
- Providing customers travelling in Coquitlam and Port Moody with a direct, one-seat SkyTrain ride to VCC-Clark.

There are park and rides at Lafarge Lake-Douglas, Coquitlam Central and Moody Centre stations—and Coquitlam Centre has more than 1,000 spots.

**Remember!** Our rail system has three zones. Head to [tripplanning.translink.ca](http://tripplanning.translink.ca) to map your route and ensure you purchase the correct fare product.

Please also remember that if you pay cash on a bus, you can transfer to other buses with your bus transfer for 90 minutes, but you'll need a Compass Card or Compass Ticket to transfer to rail or SeaBus.
