

## 3 winter safety tips for transit this season

### 1. Take it slow

Transit modes may be slippery during inclement weather, so slow down and stay safe!

### 2. Plan ahead and allow extra time in poor weather

Everyone is impacted by poor road conditions. Plan ahead to arrive safe.

### 3. Be sure to dress for the season

This means temperature and visibility! Stay safe and be seen.

**Be sure to dress for the season.**

Safety starts with you.

## An improved Guildford Exchange!

As one of the busiest bus exchanges south of the Fraser, Guildford Exchange serves 5,500 boardings spread across more than 350 buses on an average weekday. Built to serve growing customer demand, the improved Guildford Exchange provides better service to our customers and staff in one of Surrey's fastest growing neighbourhoods.

*Guildford exchange is home to the R1 King George Blvd RapidBus, one of the busiest bus routes in Surrey, which has doubled in ridership since starting service in 2013.*

The new bus layover facility features a three-metre-high acoustic barrier wall north of the bus loop to help reduce light and noise impacts to the surrounding area. Other improvements include new bike lanes, a new sidewalk and refreshed landscaping along 105th Avenue that will improve safety for pedestrians and cyclists, and better integrate with the community. New multi-coloured lighting under the Guildford Town Centre mall overhead walkway above 104th Avenue creates a more comfortable waiting area with improved visibility.
